

*Reaching the whosoever will of:*

# *Hungary*

*The Mann Family*

Dear praying friends,

We are doing well here at the Advanced Missionary Training of BBTI. Our children are doing well with their schooling and we are thankful.

The Lord has allowed us to present our ministry with several churches these past few months and I praise the Lord for a few additional supporting churches.

One thing that the Lord has taught me here at Advanced Missionary Training is that there is a lot to learn! In our

Culture class, I was introduced to the ENGEL Scale. If you recall several prayer letters ago, I mentioned and asked for prayer for the thousands of tracts and John and Romans that we have been able to pass out in Hungary. I have been praying, and wondering why so little results have come from these. The Engel scale introduced to me explains that, according to the chart above, most tracts are written at level 5-6 when, in reality, the people of Hungary are closer to level 1 or 2. This is a huge gap in understanding the fullness of the gospel. This gap answers the question of why there has been so little response to the presented gospel. Please pray, as I go forward, to be aware of these different levels. Part for the wisdom of the Lord in creating culturally acceptable gospel literature in a manner that the Hungarians can understand their personal need for the Saviour.

I am seeking the Lord's guidance in where to live upon returning to Hungary, we are excited to get back.

Mann Family to Hungary
